

AIR PURIFICATION

Maximizing Attendee Safety and Indoor Air Quality

Albany Capital Center offers visitors a breath of fresh air.

The ACC now features Bipolar Ionization Technology, a comprehensive indoor air quality solution. This new system actively and continuously purifies indoor air quality reducing airborne and surface contaminants, pollutants and viruses such as COVID-19.

Bipolar Ionization Technology Facts:

- Proactive air purification technologies to deactivate airborne viruses safely. The needlepoint brush and tube-style products create millions of positive and negative ions, proven to deactivate and reduce coronavirus surrogate (MS2 Bacteriophage) by 99%
- Eliminates bacteria, allergens and particulate matter
- Neutralizes odors and volatile organic compounds
- Energy efficient
- Increases indoor air quality
- Produces no ozone
- Independently tested and proven technology - safe and effective in dozens of independent studies

Helps Eliminate in the air and on surfaces:

- bacteria
- odors
- mold spores
- volatile organic compounds
- dust
- viruses
- pollen

The ACC continues to implement protocols and technologies in response to the COVID-19 pandemic. With Merv 13 Filters being an ACC building standard the facility remains in compliance with the CDC and government guidelines, enhancing already stringent standards of ASM's VenueShield program. VenueShield is a comprehensive and best-in-class program, deployed at ASM Global managed facilities, providing the highest levels of sanitation and safety in partnership with industry experts, as well as public health officials. As a GBAC Star accredited facility, ACC is committed to minimizing the risk of coronavirus transmissions and strives to bring confidence back to visitors for larger in-person meetings, events, conventions and trade shows.

GREEN FEATURES

An Energy-efficient, State-of-the-art Convention Center

The Albany Capital Center (ACC) is a modern, sustainable, community integrated and functional convention facility providing innovative meeting, ballroom and exhibit spaces, as well as superior catering and world-class amenities for event and meeting planners alike, in New York's culturally-diverse and centrally located Capital Region.

With multi-use spaces of varying size, flexibility is prioritized, enabling the ACC to accommodate up to 5,000 people. Guests can move freely and comfortably via enclosed walkways between the Albany Capital Center, MVP Arena, Empire State Plaza Convention Center and The Egg Performing Arts Center. Together, these buildings form the Capital Complex, the largest event space in Upstate New York at 159,000 square feet.

The ACC is conveniently located in downtown Albany within walking distance to the State Capitol, business and warehouse districts, performing arts venues, museums, shops, restaurants and nightlife.
